Artificial Intelligence for Diagnostic Support in Inherited Kidney Diseases: Challenges and Opportunities

Biografia

Prof. Roser Torra is Chief of Clinical Nephrology and Director of the Inherited Kidney Diseases Clinic in the Department of Nephrology at Fundació Puigvert, Barcelona, Spain. She is Professor of Medicine at the Universitat Autònoma de Barcelona.

She began her work in inherited kidney diseases in 1994 and completed her PhD on autosomal dominant polycystic kidney disease (ADPKD) in 1997. Since then, she has been extensively involved in both clinical care and research in this field, authoring more than 300 national and international publications.

Prof. Torra serves as site coordinator for the Spanish research network RICORS2040 and for the European Reference Network for Rare Kidney Diseases, ERKNet.

She is President of the European Renal Association (ERA) for the 2024–2027 term.
